## THINGS TO DO IN AYIA NAPA

What was once a small fishing village in the south-eastern corner of Cyprus is now a hotspot for holidaymakers looking for a lively break; over 250,000 clubbers throng into this party capital each summer and the phenomenal atmosphere in its scores of bars and nightclubs is nothing short of explosive. But this cosmopolitan town isn't all about bars and clubs for the young. If you look closely, you will discover that Ayia Napa is full of history and tradition.

### Ayia Napa Town

The center of the town is built around a medieval monastery. This has been well preserved over the centuries and a visit here is like stepping back in time. Just to the side of the main square, traditional folk dancing takes place during the summer. At the end of September, the Ayia Napa Street Festival takes place and features singing and dancing performances. Special acts from all over the world are brought here to perform at the festival. One of the most beautiful locations to visit in Ayia Napa is the fishing harbor. The entire harbor has been transformed into a pedestrian zone, with cafes and seafood taverns lining the area. At night, beautifully designed lights illuminate the area, setting the perfect scene for a romantic meal or a stroll along the harbor.

### Ayia Napa Water World

Ayia Napa is home to the largest themed water park in Europe. The park has a Greek theme to it and models of ancient Greek gods and ancient buildings are situated around the park. The water park covers a vast area and is packed with slides and water attractions to suit everyone. For small children, there is the Trojan Adventure, a play structure with water pistols, slides and a bucket that fills with water and soaks everyone in its path!

### Water sports

There is a range of great water sports offered here including scuba diving. The waters surrounding the island are warm and clear, with even tides and visibility reaching 100 to 130 feet. Divers can visit undersea remains of prehistoric archaeological ruins and explore rock gardens teeming with sponges. You can also try out waterskiing, windsurfing, sailing, canoeing and scooters as well as pedal, motor and speed boats among other activities.

### Marine Life Museum

The Marine Life Museum is located in Ayia Napa's Town Hall. It is the first natural museum of its kind in Cyprus and it exhibits past and present marine life and promotes the study and research of marine life while also emphasising the importance of preserving the marine environment. Every specimen in the museum was removed from its natural habitat after death.

### Ayia Napa Sculpture Park

Located at the eastern edge of Ayia Napa, the sculpture park covers an area of 20,000 sq. The rocky landscape slopes down to the sea provide a serene and peaceful backdrop to this visually exciting display of modern artwork. The park continues to grow with more works are being added each winter by talented international artists.
